

# From UC Davis. For the World.

The plug-in hybrid car. The total-body PET scanner. The California Funk art movement. At UC Davis, we create and solve for tomorrow. We've become a global leader in pandemic response, revolutionized care for animals and communities affected by wildfire and climate change, and given California wines a place of pride at the global table. Whether we're introducing resilient rice strains that will help feed the world, preserving ancient languages with next-generation technologies, or designing deepspace habitats for the future, our innovations make a transformative difference.

Over the years we've become a powerhouse in agriculture, veterinary medicine and the health sciences. Yet our impact, from the greater Sacramento region to the global community, is so much greater than the sum of our parts.

Now, as we look forward, we look to you. Together, we will prepare change makers, reimagine medicine, spark innovation and creativity, and sustain healthier communities.

A world in flux needs solutions that can grow with it. UC Davis is poised to lead the way, in partnership with supporters who share our vision to go beyond the expected—to answer the world's most urgent needs and inspire its most hopeful dreams.

#### An Invitation

We invite you to join us in thinking bigger about what's possible.

Your partnership will have a powerful impact—helping people lead healthier and fuller lives, building stronger communities, and shaping a brighter future for the planet we share.

### From UC Davis. For the World.

## **Greater Together**

Across the disciplines, UC Davis is at the forefront of catalyzing innovation and mentoring the next generation of experts. No matter what you're passionate about, your philanthropy can take this work even further.

#### **Preparing Change Makers**

Aggies are curiosity-driven, solution-oriented leaders and collaborators who use their knowledge and experience to make a meaningful difference. Your support will help them exceed all expectations as tomorrow's change agents.

#### **Reimagining Medicine**

UC Davis Health and researchers across our university are driving medical discoveries, technology development and clinical innovations that bring hope and healing to patients and families everywhere. Your partnership will help us ensure that more people live not just longer lives, but better lives.

#### **Sparking Innovation and Creativity**

Aggies are doers, thinkers and makers—and your support will help us grow our reputation as a hub for ingenuity and innovations that create a better world.

#### **Sustaining Healthier Communities**

We partner with communities to promote equitable access to the resources people need to thrive.

Together, we will accelerate solutions—from policy-shaping research to clinical outreach—that address urgent environmental and social justice challenges and enhance quality of life for all.
